Dear Charlie,

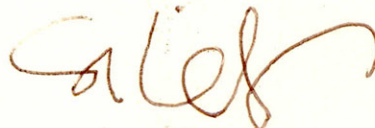

WOW! Words cannot fully express the way you and your colleagues have consistently gone above and beyond my expectations with your work on developing the www.aldositaly.com web site.

From the outstanding and easy-to-navigate platform your design team created, to the unbelievable speed at which you and your colleagues work (changing entire pages literally minutes after I send them to you), Adventure Web's unassailable focus on quick, timely, and thorough customer relationship management was evident from the very start of our relationship.

While I may have initially been hesitant about a web site's ability to demonstrate any real value in and of itself (and drive real sales for our business), the results of your outstanding work are clear: nearly 30,000 hits in the first 18 days of this month alone!

At Aldo's, we do business according to Chef/Owner Aldo Vitale's long standing practice of only engaging the services of those vendors who share our core values and our fundamental goal of creating an extraordinary and memorable experience for each of our Guests. I'm happy to say that we've found such a company in Adventure Web and I am eager to recommend your firm to anyone who is interested in web site development.

Very truly yours,

SERGIO VITALE
